

TOP COAT

**ALFAGOMMA TOP COAT
OVER 10 TIMES HIGHER
THAN STANDARD**

TOP COAT

- ▲ TESTED IN ACCORDANCE WITH ASTM B117-03 AND UNI ISO 9227 STANDARDS
- ▲ OVER 500 HOURS CORROSION PREVENTION IN SALT SPRAY FOG TO WHITE RUST
- ▲ MORE THAN 1000 HOURS CORROSION RESISTANCE TO RED RUST

// TOP COAT

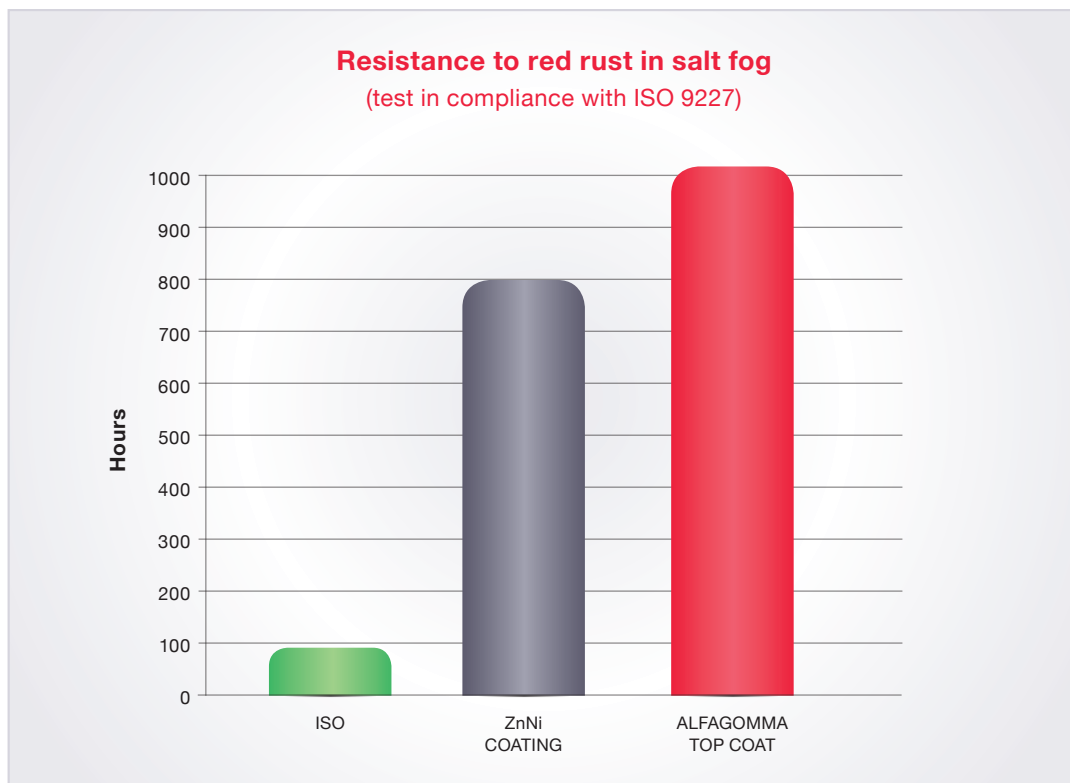

ALFAGOMMA, after an extensive process of research, testing and technical development, is proud to introduce its new Galvanic Coating to the market.

ALFAGOMMA TOP COAT (ATC) is based on a system of Trivalent Passivation and High Resistance Sealing, which reaches outstanding rusting prevention for high pressure fittings and adapters.

The treatment donates the product a slightly purple-gray shade, which makes it immediately recognizable.

Tested in accordance with ASTM B117-03 and UNI ISO 9227 standards, ATC ensures over 500 hours corrosion prevention in salt spray fog to white rust, and over 1000 hours to red rust.

ALFAGOMMA, in conformity with the European directive 2000/53/EC, produces only Chromium(VI)-free fittings and adapters, confirming its long-term commitment to the environment.

**Tested in accordance with ASTM
B117-03 and UNI ISO 9227
standards**

**Over 500 hours corrosion
prevention in salt spray fog to
white rust**

**More than 1000 hours corrosion
resistance to red rust**
